About the University :

The Institute of Chartered Financial Analysts of India (ICFAI) was established in 1984 as a not-for-profit educational society in Hyderabad, India with the broad objective of empowering citizens through world class quality education. By innovatively launching the CFA Program in 1985, its chain of Business Schools (IBS) across India in 1995 and technical education program subsequently, the ICFAI Group has been offering quality education & research facilities to students. The ICFAI Group has ten universities across the country (in the states of Uttarakhand, Rajasthan, Himachal Pradesh, Chhattisgarh, Jharkhand, Tripura, Mizoram, Nagaland, Sikkim & Meghalaya) through Acts passed by the Legislative Assemblies of the respective states.

The ICFAI University Jharkhand (IUJ) was established under Jharkhand Act 08, 2007 (subsection 2 of section 4 of the ICFAI Act, 2006). The University is empowered by UGC to award degrees under section 22 of UGC Act 1956. A number of UG/PG/ Research programs viz. B. Tech. (Mechanical Engg & Comp.Sc), BCA, BBA, MBA and Ph.D etc. are being offered currently by the University. Diploma in Mechanical Engg., B.Sc. (Comp.Sc), and B.Com (Hons) courses have also been introduced this year.

NATIONAL CONFERENCE

ON

INTERNET OF THINGS :
TECHNOLOGY TRENDS & APPLICATIONS

23 SEPTEMBER 2015, WEDNESDAY

Venue

ICFAI University Jharkhand Campus
(Faculty of Science and Technology)
Plot # 2065, Simalia, Near Daladali Chawk
Ranchi - 834005, Jharkhand
Phone No: 0651-2100277,
Website: www.iujharkhand.edu.in

About the Conference :

The Internet of Things (IoT) is one of the fastest growing technological tool which is destined to change the lives of the people around the globe. It is the network of physical objects or "things" embedded with electronics, software, sensors and connectivity to enable objects to exchange data with the manufacturer, operator and/or other connected devices based on the infrastructure of International Telecommunication Union's Global Standards Initiative. IoT is expected to make profound impact on personal and professional lives of people and also the society. It is estimated that IoT will connect huge number of objects by 2020, generating business worth \$1.7 trillion

Objective :

The conference aims at providing a platform to share the ideas and trigger discussion on this emerging technology & its growing application. Since it is going to be a congregation of academicians, consultants, practitioners from the industry, researchers, students and others, the technical sessions would deliberate at length the various opportunities and challenges and also the need to formulate guiding policies for channelizing its business growth.

List of Conference Tracks (but not limited to) :

- ❖ Intelligence and communication
- ❖ Challenge of interpretability, Integration
- ❖ Multi-Agent Systems (MAS);
- ❖ Knowledge Representation, Decision Making Strategies, Data Fusion
- ❖ Pattern Recognition and Biometrics for the IoT
- ❖ Individual & Social behavior Analysis through IoT Sensing Mechanisms
- ❖ Context Aware Data Management
- ❖ Environmental Monitoring, Network Surveillance
- ❖ Bio-inspired Intelligence, Neural Networks for IoT
- ❖ IoT Delivery Platforms-existing & emerging platforms & architectures for exposing & interacting with IoT
- ❖ IoT in Emerging Markets
- ❖ Threats and Security in IoT
- ❖ Consumer and commercial applications in sectors like Retail, Transportation, Health-care, Safety and others
- ❖ Business models
- ❖ Challenges
