<https://youtu.be/nmZQARkcpOc>

Nostalgia, never seems to end from both the sides, but the heart beats on for the alumni. Never! fail to attach the moments of time spent and time for future because the pulse of academia with the alumni helps forever.

Platforms are created through University for the students, they become a part of the academia, and finally when they pass out, they become the life-line forever

Experience Sharing by our Alumni

IUJ Alumni Memoirs

A Golden Era

My most nostalgic moment, started just after the entry as I was able to gel with my friends easily, who became my lifelong friends. The faculties at the Institute were elite and I was overwhelmed attending their lectures. As I enrolled late, my biggest challenge was to cover-up the missing sessions. However, I went to some faculties to ask for personal classes and I got tremendous support from them.

I learned from my faculties that challenges make a person stronger. I was facing many challenges in my tenure as a student but thanks to my teacher who always motivated and inspired me by saying that "Life is a journey and it never stops; so go with it sometimes running sometimes walking but always keep moving. So I set a goal and chase it and followed it till I reached my destination. I adhered to myself and faced everything with a brave heart. I boosted my self-confidence which helped me finally to be what I always wanted to be."

The thought of entrepreneurship was always there in my mind. And finally, the day came when I planned to start my own venture. The guidance of my teachers helped me to achieve my career goals and to confidently face the cut-throat competition of the market. Life goes on and we make memories day by day but these were some short and best nostalgic memories I had.

A journey unparalleled -IUJ Alumni Fond Memories

"I had the privilege of pursuing BCA for the batch of (2013-2016) from the prestigious ICFAI University Jharkhand which helped me to gain specialised knowledge in the field of IT. ICFAI promises excellence and academic superiority which makes the learning process easier for the students.

IUJ provided me the required knowledge and skills which helped me in refining myself and being eligible to face the competition. The professors follow the exceptional pedagogical technique that makes the campus life very lively, vibrant and provides an excellent platform for imparting learning with fun.

The skills inculcated, not only molded my personality but gave me the confidence to excel in every step of my personal and professional life. I learned that for achieving success in a profession or be an entrepreneur, it is very important to develop and maintain good networking with people."
