### ***Mr. Raja shares his note on experiences of Ph.D journey till now***

*After Completion of Coursework 1, we were advised by our Phd Team at IUJ Ranchi to give an initial presentation on our activities during the last one month including our proposed MOOC courses, and seminars/webinars/webints&workshops attended after the end of Coursework 1 Exam. Moreover we were advised to give our plan & timeline for writing an article relating to our proposed Broad Research topic and our learning from the Peer Evaluations done by us. This interactive session was held online on 13/09/2020. All the Scholars presented their views and plans individually through Power Point Presentations to the IUJ Phd Team and respected Vice Chancellor Sir. Each Ph.d Scholar presented within a timeline of maximum five minutes.*

*The results of Coursework 1 were also intimated to us individually well in time in our registered email. Moreover the Ph.d Handbook 2020 was also published and sent to us. VC Sir appreciated our efforts even within this pandemic and guided us for our next course of activities.*

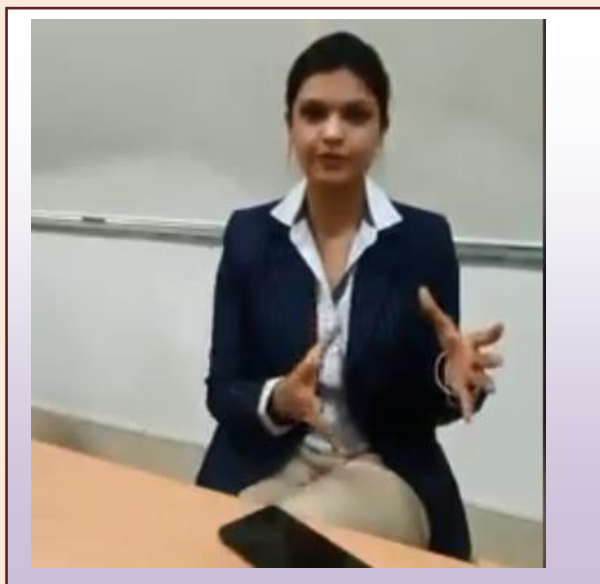

*It was indeed a great learning experience and the teaching methodology/pedagogy of ICFAI University Jharkhand is really very effective. We are just enjoying our virtual learning in the Ph.d Course work, and hope to meet Physically at Ranchi ,soon after normalcy returns.....By Raja Ghosh*

*Mr. Sarojkant Singh PhD scholar of ICFAI University Jharkhand expresses his happiness after completing Course Work - 1*

*Mr. Sarojkant  
Singh, Research  
Scholar , 2020*

*It has been very interactive coursework at IUJ. We had an excellent rigorous Course work 1 and were provided guidance to attend a number of online courses on MOOC from internationally accredited schools.*

*I have also attended workshop on Risk Management and SPSS during this tenure.*

*My journey to writing starts here. I have been researching project management and would like to share how the pieces are slowly converging.*

*The various modes of learning is an excellent way to stimulate the mind. A simple classroom course or a workshop doesn't have the same effect when compared to when they are combined. And this is exactly the utility we are reaping. I started studying the various methods of accessing the project management risks .*
