UNIVERSITY
JHARKHAND

5
DAYS

Online Faculty Development Program

ON
Data Analysis

Using Structural Equation Modelling (SEM)

6th to 10th February 2023

Time: 4:30 to 6:30 PM

ABOUT THE FDP

In this one-week FDP, Structural Equation Modelling will be covered (second generation of multivariate analysis) which tests complex, and multifaceted constructs. This FDP will aid researchers, academicians, and business professionals with hands on sessions using SmartPLS 4 software.

PEDAGOGY:

- Combination of theoretical and practical sessions with a focus on two-way communication.
- Interpretation of results in APA format
- Using relevant articles from Indexed journals.

Resource Person

Dr. M. Rajkumar
Associate Professor
ICFAI University Jharkhand

PARTICIPATION

FEE:

Rs. 2500/-
(Including GST)

REGISTRATION LINK

About the University

The ICFAI University, Jharkhand is a part of ICFAI Group that is well known for its quality of education and ethics. It is the first Private University that was set up in Jharkhand, as per the State Legislative Act and is recognized by UGC, as per Section 2(f) of UGC Act, 1956. The University offers a range of Under-Graduate, Post-Graduate and Doctoral Programs in Engineering, IT, Law and Management disciplines.

The University is committed to groom its students into competent professionals, by providing contemporary knowledge, equip them with industry-relevant skills and inculcate good values.

The University was ranked among the top ten in East Zone and among top 50 in the Country during 2020, as per various independent rating and ranking agencies. The University also focuses on diversified and collaborative projects for local community through skill developments in order to help in generating job prospects as a part of its social commitment.

About the Seminar

Mining industry is considered for severe detrimental effect on environmental deterioration but at the same time it is an essential component for country's economical growth. Mining causes biodiversity loss, wildlife extinction, extensive land clearance, air, water and soil pollution thereby changing the ecological equilibrium of its surrounding area. It also involves relocation of communities, living in this mineral rich areas and has significant social consequences/resistance.

The United Nations in 2015 adopted "The 2030 Agenda for sustainable development" which provides a blueprint for peace and prosperity for the people and planet. The agenda encompasses Sustainable Development goals to eradicate the above ill effects thereby ensuring good healthy life and atmosphere for survival for humans and other living species. Energy is the key input in bringing the people out of the poverty and help the country for its sustainable growth.

Government of India under its "Make in India Initiative" takes all the initiative by way of modernizing the existing infrastructure and Startup concept to raise the contribution of manufacturing to India's GDP from present 16% to 25%.

| Ranked 1st in Times School Awards 2021 | Ranked 1st in Education Today Awards 2021 | Ranked 6th in THE WEEK Awards 2021 | Ranked among top 10 in UGC Awards 2021 |
|--|---|--|---|

About the Conference: Natural Farming is one of the revolutionary steps in the field of agriculture. It is the chemical free traditional farming method. The farmers undergo indigenous practices and encourage using local breeds of seeds, and native varieties of vegetables, grains, pulses and other crops. In order to promote among the farmers, a lot of emphasis has been given by Government and other multi-lateral agencies. Also, on 18th December 2021, Hon'ble Prime Minister, Shri Narendra Modi at the National Conference on Natural Farming in Gujarat has emphasized its importance. The movement among the Government machinery has become strong and in fact, there is a need to further enhance its efficacy.

In India, the Marginal, Small and Medium farmers are the instrumental for the agricultural productions and without the vagaries of nature. They engage themselves to increase their production and to encounter the market forces by optimizing the critical factors of production. The farmers are bound to apply various chemical fertilizers, pesticides to boost the agricultural production, which is not a good sign for long term. States like Andhra Pradesh (12.30% of farmers covered), Himachal Pradesh (16% of the farmers covered) and Gujarat (3.70% of the farmers covered) are the front runners in Natural Farming.

Majority of these farmers are in the nascent stage of Natural Farming and require not only technical handholding support but also adequate capital and infrastructure facilities including market linkages for the products of Natural Farming. The report of NITI Aayog predicts that the population in the world will reach its approximately 10 billion by the year 2050 and the demand for food grain will also increase substantially up to 50%. Depletion of ground water is also another area of concern which is a challenge to the modern Agriculture. Government of India, NABARD and Various Agricultural Universities and Research stations are continuously doing research and development to solve for better production and hygienic products. While these initiatives present excellent opportunities for inclusive Natural Farming for the growth of the farmers and the country, as a whole, there are a number of challenges to be addressed.

It is in this context, ICFAI University, Jharkhand, in association with NABARD, Ranchi is organizing this National Conference, which will provide a platform for discussion on the various facets of the Natural Farming, by academicians, researchers, industry professionals, agro-entrepreneurs, scientists from agribusiness and related sectors, agri-financing and refinancing organizations, Non-Government Organizations, policy makers from Central and State Government so as to make Farmers and supporting intermediaries such as SHGs, FPOs/PPCs and other entity more robust for better production and rural upliftment.

Objective:
 This conference is aimed at examining, analyzing and presenting different ideas on renovation and revival of prospects of natural Farming and various challenges associated with it in case of Indian Farming. Broad Themes/Sub themes of the Conference:
The conference will center on following broad themes/sub themes, but not limited to them--

THEME: Natural Farming

SUB-THEMES:

- ◆ Soil Management
- ◆ Agri Based Congenial ecosystem
- ◆ Plant Protection Management
- ◆ Crop diversification and Management
- ◆ Water Conservation and Management
- ◆ Sustainable Farming
- ◆ Livestock Management
- ◆ Climate change and sustainable Agriculture
- ◆ Self-Employment and Agri-Entrepreneurship

- ◆ Agricultural Research for developed Farming
- ◆ Institutional Credit

THEME: Management Practices

SUB-THEMES:

- ◆ Awareness for Natural Farming
- ◆ Cost effective Farming Practices
- ◆ Marketing of Green Products
- ◆ Value addition and Post-Harvest Management
- ◆ Role of Women in Natural Farming
- ◆ Supply Chain Management and Farming
- ◆ Socio-Economic Environment in Farming
- ◆ Political-legal efforts in boosting Farming

THEME: Farm Mechanization and Technology Adoption

SUB-THEMES:

- ◆ Pivotal role of Technology in Strengthening Natural Farming
- ◆ Support and promotion by Government and other agencies
- ◆ Digital Transformation in Agriculture
- ◆ Improved agri implements and Farm mechanization
- ◆ AI, IoT, GIS and Remote sensing in Natural Farming
- ◆ Government reforms and Schemes

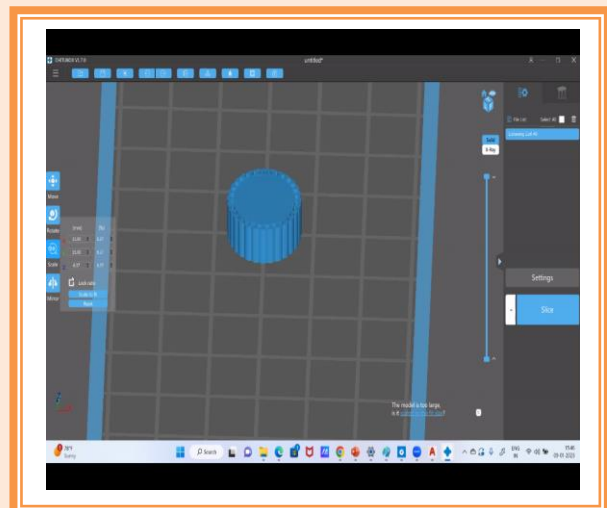

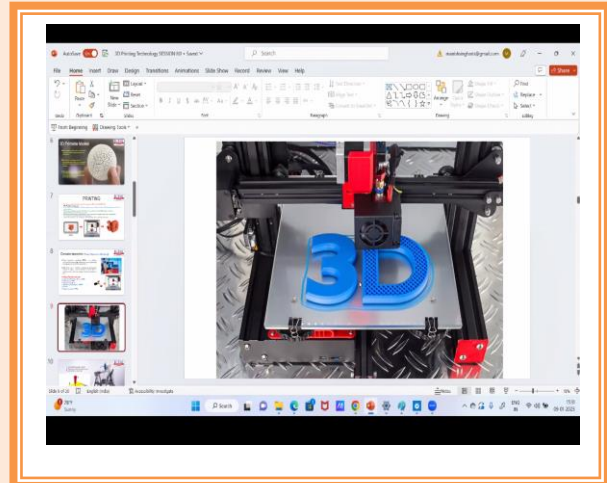

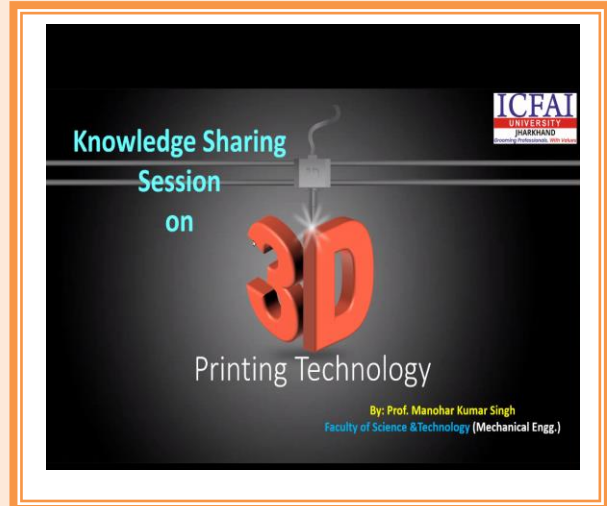

Interested participants may submit their paper on the above topics or any other related topic. All authors have to register themselves, in order to submit papers.

Submission Guidelines:

1. Full papers should be e-mailed to seminars_fm@iujharkhand.edu.in
2. Contributors must provide authors' name, email address, mobile number, institutional affiliation, Photo (PDF format) and the title of the paper in a separate document (in MS word format).
3. In case of joint authorship, details of all authors should be given. Details of the authors' name and affiliation should not appear elsewhere in the manuscript.
4. The full paper submission should contain the following:
 - a. The full paper (without author identifiers) along with the title, an abstract of maximum 300 words, keywords (maximum of 8 keywords), and the main body of the paper, inclusive of tables, figures and appendices in bibliography. The full paper should be submitted as a single document in MS Word. The length of the full paper should not exceed 8,000 words, inclusive of the tables, figures and appendices but exclusive abstract.
 - b. The full paper must be formatted as MS Word document, in Times New Roman, 12 point font with 1" margin on all sides. All papers will be checked for plagiarism, as per the University Rules, before they are accepted.
5. All selected papers may be allowed to be presented at the conference
6. All authors whose papers are accepted will be given certificates.
7. Award of recognitions will be given to the Best Paper on the basis of contemporariness of the topic, originality, rigor of research, analysis and conclusions and presentation. In order to encourage students, a separate Best Paper award will be given among the student authors.
8. Soft copy of the Conference proceedings will be published.
9. Selected papers may be considered for publication in the forthcoming issues of IJG Journal of Management (ICFAI Approved and indexed journal with ISSN).
