Message

I am happy to know that ICFAI University, Jharkhand is organising a National Seminar on the theme "Inclusive Growth Through SROs & FPOs in Rural India" on 18th & 19th March, 2021 through online video-conferencing and to mark this occasion a message is also being published.

It is a matter of pleasure that the organisers have selected the theme "Inclusive Growth Through SROs & FPOs in Rural India" for the National Seminar. Inclusive growth refers an impartial allocation of resources with benefits incurred to every section of the society. But the allocation of resources must be focused on the immediate short and long term benefits of the society such as availability of consumer goods, people access, employment, standard of living etc. The message of the father of the nation Mahatma Gandhi, to quote, "India lives in villages" suggests, Almost 80% of population lives in villages and most means of livelihood of people living in rural areas being agriculture only, small and marginal farmers have to be taken utmost care of. The very idea of "Atmanirbhar Bharat" will be a reality by the cooperation of government organisations as well as various NGOs as FPOs in collaborative mode.

I believe that many new ideas and suggestions would be articulated & debated during the conference and outcome thereof will be used for the benefit of an inclusive growth in the rural India.

I considered my best wishes to the National Conference, organisers & participants on this momentous occasion.
