Professional Certification Program (1 year)
ICFAI Model of Integrated Education Scheme
Purpose, Path & Philosophy with Benefits & Beneficiaries

A small step towards
"Viksit Jharkhand"

The **Professional Certification Program (PCP)** under the **ICFAI Model of Integrated Education Scheme** has the ever-evolving contemporarily relevant potential to bring the required added capabilities and copabilities to many students of Jharkhand as it has been designed with all Industry perspectives along with regular UG/PG programs of any University. It is meant to substantially enhance **the internship** with Industry partners and **career/job/placement opportunities** with built-in affordability and flexibility. It has a service motto for all Jharkhand students, faculty and professionals as aspirants, including the ICFAI students.

It will be a new entrepreneurial venture of ICFAI University Jharkhand to co-create and co-shape lives with Industry partners for all Learning & Praxis. **Centres of Innovation & Excellence in Blockchain, AI, ML, Drone Technology and 3D technology, and Cyber Security, Cloud Computing, and Quantum Computing**, along with **Skill Enhancement & Personality Development Labs to boost employability and Research options**, will emerge in association and collaboration as **encouraged by UGC/ AICTE / NEP / NSDC within the NCRF & NHEQF**. ICFAI will provide professional certification and, with time, joint certification with the industry under established MoUs and norms. The proposal has a substantial positive purpose and possibilities **to bridge the skill gap and the real needs of the employability concern of the Government, Industry and society at large**. We proudly launch it as the "*ICFAI Model of Integrated Education Scheme*".
